COMPLIANCE & DIGITAL ETHICS DIPLOMA FOR LEGAL PROFESSIONALS

FUTURE-PROOFING LEGAL PRACTICE THROUGH
CLARITY, TRUST, AND EXCELLENCE.

Oct 2025

Learning Objectives (SRA Competencies A–D)

By the end of the diploma, solicitors will be able to:

- Apply data & privacy regulations confidently.
- Integrate cybersecurity into daily practice.
- Use AI tools responsibly & ethically.
- Strengthen client trust through secure practice.
- Align professional skills with SRA Competence Framework (A–D).

Programme Modules:

The Structure

1. Foundations of Data Protection

GDPR · Data Act 2025 · Case law

2. Cybersecurity in Legal Practice

Threats · Breach Response · Client Trust

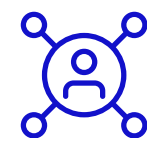

3. Responsible Use of AI & Emerging Technologies

Responsible use · Confidentiality · Governance

4. From Compliance to Client Value

Advisory skills · Business Development

5. Capstone Project

Breach simulation · Client Advisory Role-play

Blended 12-week programme with applied, scenario-based assessment.

Market Need & Viability

- Regulatory: Ongoing SRA competence + new Data Act 2025 obligations
- Market: 166,000+ practising solicitors in England & Wales
- Risk: Cybersecurity ranked top threat for law firms
- Skills gap: 58% cite lack of digital competence as growth barrier
- ROI: reduced risk exposure, improved retention, enhanced client trust

Success Metrics: completion rate > 90 %, confidence gain +25 %, participant NPS > 70.
